CARTHAGE GIRL IN FIRST PLACE

Miss Grace Overman Wins County Oratorical Contest and Miss Carolyn Wilson is Second

GING CONTESTANT THIRD

Carthage High School Girl Awarded \$50 Prize and Will Represent County in District

Miss Grace Overman, representing the Carthage high school, won the county oratorical contest at the Graham Annex auditorium Wednesday night, and the right to represent the county in the district contest, the time and place for which have not been announced.

The other contestants were Miss Carolyn Wilson, representing the Rushville high school, who won second place, and Miss Clara Corner of Ging, who was awarded third place by the judges.

All three spoke on "The Constitution" and the first place winner received a check for \$50.00, the second one for \$25.00 and the third \$15.00. The prizes were given by the Rush County Bar association, which sponsored the contest in this county.

Russell Titsworth was chairman for the county contest, as the representative of the bar association, and presided at the program last night.

The judges were John Morris of Newcastle, an attorney and mayor of Newcastle; Earl Lines of Connersville, Fayette county superintendent of schools, and Raymond Rolles, a Greensburg attorney. Paul Benson of Newcastle was unable to act on account of illness and Mrs. Rolles came in his place.

The invocation was delivered by the Rev. Gibson Wilson, pastor of the First Presbyterian church, and following a brief statement by the chairman, announcing the purpose and scope of the National Oratorical contest, the three contestants delivered their orations. Miss Corner speaking first, Miss Overman second and Miss Wilson third.

While the judges retired to bring in their decision, a short musical program was given, Miss Edna Laurs of the high school playing two violin solos, with piano accompaniment by Miss Virginia Laurs, and Miss Alice Piersol, county music supervisor, singing a solo. Mrs. B. D. Forthing played the piano accompaniment.

An audience of approximately 200 persons attended the contest. Mr. Titsworth expresses regret that no more interest had been shown by the county high schools in the oratorical competition, asserting that public speaking deserved just as much attention as basketball. He was applauded for this remark.

Mr. Titsworth explained the steps in the contest, which would terminate in the final event in which the regional winners will compete at Washington, D. C. The judges will be the president of the United States and members of the supreme court. Money prizes will be awarded in all of the contests.

VISIT COUNTY SCHOOLS TO PROMOTE MUSIC WORK

Homer S. Dunn and Mrs. Swain of Indianapolis Inspect Different Types in Tour Today

STATE OFFICIALS INVITED

Several schools in the county were being visited today by Homer S. Dunn, representing the Music Art Society of America and Mrs. Swain, both of Indianapolis. The object of their visit was to assist in promoting the music work, and especially Music Memory work in the schools.

They visited a representative of each type of school in the county, of which there are several in existence here, from one room schools, to the higher branches of six year consolidation.

The state board of education, state superintendent Noble Sherwood, Sept. Reitzel of Hendricks county and a number of other prominent educators of the state, have been extended invitations to visit the schools of Rush county next week, and it is expected that they will decide on a date, and study the local systems.

TO DISPLAY SPRING FASHIONS

Newest Wearing Apparel to be on View at Style Show Tonight

The fashions for spring, in gorgeous array, will be displayed by living models at the style show to be given by the A. A. G. club of the high school at the Graham Annex auditorium tonight at eight o'clock. Rushville merchants are co-operating to make the show a success and the advance sale of tickets indicates a lively interest being taken in the event.

The exhibit of all that's new in men's, women's and children's wearing apparel, will demonstrate forcibly, it was pointed out today, that Rushville stores carry stocks of wearing apparel that follow the style trend very closely, and at the same time adhere to a high standard of quality.

The show will be in three acts and during intermissions there will be musical numbers.

DISTRICT MEETING THE BEST ONE HELD

State Officers of Red Men Characterize Session as Leader Thus Far

SIXTH OF SERIES OF TWELVE

Gwynneville Degree Team, Which Won Prize Last Year, Competes Again for \$50 Award

The district meeting of the Great Council of Indiana, Improved Order of Red Men, held here Wednesday afternoon and evening, the sixth in the series of twelve being held in the state, was characterized by state officers as the best one held thus far.

The program was carried out as planned, culminating with the work in the adoption degree given at 8:30 in the evening by the championship Gwynneville degree team, which won the Indiana championship last year and is competing for the same honor again this year.

A prize of \$50 will be given to the degree team presenting this degree at any of the district meetings, each team to compete in its own district. The work of the Gwynneville team here yesterday was in competition for this prize. The team has been invited to give the adoption degree at the Frankfort district meeting next week.

A prize of \$10 in gold will also be awarded to the member of the degree team. Continued on Page Three

SECOND APPEAL FOR FREEDOM REFUSED

William D. Shepherd Suffers Setback in His Effort to Obtain Liberty on Bail

WILL BE ARRAIGNED APRIL 9

Chicago, Ill., April 2—William D. Shepherd suffered a setback today when Judge Hopkins denied a second appeal for freedom on bail pending trial on the charge of murdering Billy McClintock.

Shepherd will be arraigned on April 9 on the indictment charging him with murder.

William Stewart, chief defense attorney announced he would make a motion to quash the indictment. Stewart also said he would continue his fight to relieve Shepherd on a writ of habeas corpus proceeding.

The court's decision in refusing to free Shepherd on bail followed a bitter debate between Stewart and State's attorney Crowe.

Stewart presented numerous affidavits by persons who declared they would not believe certain state's witnesses under oath.

Crowe protested that these affidavits were incompetent and did not have any bearing on the guilt or innocence of Shepherd.

Judge Hopkins ruled that Crowe was right and for the second time refused to allow Shepherd his freedom.

Shepherd appeared downcast at his second hearing.

Thousands of More Volunteers in Fields Clearing Away Debris Left By Tornado

SOUTHERN INDIANA RELIEF

Indiana Farm Bureau Federation Program in Third Phase With Plowing Under Way

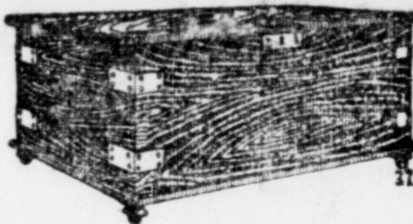

Indianapolis, Ind., April 2—With a thousand or more volunteers in the field clearing away the debris left by the tornado which swept over the southwestern part of Indiana on the evening of March 18, and a battery of twenty tractors and plows breaking ground in the wake of the cleanup crews, the Indiana Farm Bureau Federation tornado relief program entered its second and third phases this week.

The Federation relief program, in brief, called for, first, the meeting of the need for food, shelter and clothing in the stricken district, and these needs were met with dispatch. The second phase was the clearing of the land so that the spring plowing could get under way and the third was the breaking of the land.

Co-operating to the fullest extent possible with the Red Cross, the Federation expects to carry forward as far as funds will permit the work of permanent rehabilitation in the ruined area. Through an interchange of supplies with the Red Cross, the Federation has been able to help meet the requirements of practically all the residents of the rural territory which suffered at the hands of the storm. Approximately eighty-five farms were leveled by the storm, and about the same number suffered heavily in the loss of stock and damage to homes, barns and other buildings. To all needing them the Farm Bureau relief station supplied tents, clothing, food, bedding, stoves and other household necessities and this service aided greatly in getting persons who were being cared for by neighbors back on their own lands. A complete survey was made of the needs and financial condition of every resident of the rural territory hit by the storm. Four carloads of supplies were received by the Farm Bureau from Chicago, for distribution among the storm victims. Appeals were sent to all Indiana Farm Bureau units for funds and these are now beginning to come in rapidly. The International Harvester Company, through arrangements made by Perry H. Crane, general secretary of

THE TREASURE CHEST

The treasure chest today was opened at the Daily Republican office, and this time revealed the fact that the Rushville Natural Gas Company has a customer owing them for \$2.40 which they have forgotten all about, but which is now ready to be paid in a check. If the person in charge of the collections for the gas company will call at the Republican office, the collection can be made.

And here is another one. Would you think a laundry bill for seven cents could go by unaccounted for? If the Rushville Laundry will send their collector, he will be cited to a place where a customer has 7 cents for him, and a real for sure bank check will be issued for that amount.

ARGUMENTS BEGIN IN CHAPMAN MURDER TRIAL

"Ace of Crooks" Calmly Faces His Accusers and Answers Questions of Prosecution

DENIES MURDER OF OFFICER

(By United Press)

Hartford, Conn., April 2—Gerald Chapman, "ace of crooks" closed his own defense on a murder charge here today and arguments began this afternoon. By tomorrow the jury which Chapman himself picked, may be considering the evidence.

Chapman, sitting in the witness chair with a perfect "poker face," quietly answered questions, making a categorical denial of all the charges against him, and was sarcastic on cross examination.

"I chance my name like I do, my collar," he told Prosecutor Hugh Alcorn, who became inquisitive about his many names.

Once he said when his lawyer objected to questions, "Let them ask me. I will tell them."

He wound up his testimony with a statement made to the jury voluntarily and with the same characteristic

CHRISTIANITY IS MEASURED BY ACTS

Listening to Able Sermons and Singing, While Commendable, is Not Making Christians

SERMON BY EVANGELIST

People Have so Many Lost Opportunities, if Piled up, They Would Reach to the Sky

The world's greatest question, or "What shall I do with Jesus, which is called Christ?" was the text of the sermon which the evangelist Edward Thomas preached at the St. Paul's M. E. church Wednesday evening. Tonight he will preach on the subject "The Fear of Man."

He read his text from Matthew 27, and said in part:

"Nineteen hundred years ago, a star shone brightly over a manger in Bethlehem and over the moonlit hills of Judea; a myriad of angels heralded the birth of the most wonderful man-child ever born. A man born to be a marvelous teacher, and one who should and did, create in men the spirit of brotherly love and kindness and no matter what he said or did, the Jews rejected him and finally murdered him without a cause. And today men are rejecting and insulting him and crucifying Him for the same senseless reason."

"Pilate the murderer said 'What shall I do with Jesus?' That is the question each one of us must answer for himself. When God brings an influence to encourage a man to take his stand for Christ, all Hell gets busy to discourage him. Pilate had things to discourage him. The dream of his wife the consciousness of finding no fault in Him, still he was not brave enough but let the wishes of the mob sway him."

"Your Christianity is measured by your actions. To sit in the comfortable church, hear the able sermons, the good singing, only sit and listen, while that is commended, it is not making a Christian."

We have so many lost opportunities. Continued on Page Three

HURRY UP RUSHVILLE!

The residents of the village of Freetown, down in Jackson county, are building their basketball boys a gymnasium. Freetown is the team that won the sectional and went to Richmond, and was defeated by Rushville in their first game. Freetown hasn't had a place to play, and the citizens are all pepped up over their prospects for next year. Ninety-six shares of stock in the gymnasium project has been pledged at \$25 a share, and 24 shares remain to be sold in order to guarantee the building. Freetown has a population of 250 people—babies, boys and girls, and grown-ups. Rushville has a population of 6,000, but the gymnasium is not as far advanced as the project down at Freetown.

TRANSFER DETAILS BEING WORKED OUT

Actual Sale of Dodge Brothers Motor Co., to New York Brokers is Completed

LARGEST SALE ON RECORD

Dillon, Read and Company, Ten Years Ago Unknown, Humbles Mighty Wall Street Interests

(By United Press)

Detroit, Mich., April 2—Final details were being worked out today for the actual transfer of the management and property of the Dodge Brothers Motor Company to Dillon, Read and Company, in the largest automobile deal ever made.

A. C. Schwartz and two associates representing the New York brokers, refused to name the amount but it is thought to be \$145,000,000. The next record sale made was the purchase by Henry Ford of the minority stock of his company at \$106,500,000.

The formal statement issued by Schwartz and associates emphatically denied that any consolidation of Dodge with any other company or companies was contemplated. It was the intention to continue Dodge Brothers, Inc., as an independent concern without a change in personnel or management, they said.

Wesson Seyburn, son-in-law of Mrs. John F. Dodge, represented the Dodies at the conference yesterday. John Ballantyne, treasurer of Dodge Brothers, confirmed the sale.

E. G. Wilmer and S. W. Howland, assisted Schwartz. Wilmer is chairman of the board of directors of the Goodyear Tire and Rubber Company.

New York, April 2—Wall street stood back this morning to take a searching look at the pair of gigantic sales announced after the close of the market yesterday.

The announcements were:

Sale of Dodge Brothers' Automobile concern to a group headed by Dillon, Read and Company of New York.

Sale of E. L. Doheny control of his Pan-American Petroleum and Transport Company to the Standard Oil of Indiana and others.

In surveying the transactions Wall street found:

That Dillon, Read and Company 10 years ago unknown on Wall street and until a week ago unknown outside of Wall street had challenged J. P. Morgan and the DuPonts and humbled those mighty interests in a gigantic struggle.

That probably the largest all-cash transaction in Wall street history had resulted.

That the purchasers had paid

SECOND YOUNG MAN IS ACCEPTED FOR TRAINING

Frank Green, Rushville High School Student, to Attend Citizen's Camp At Fort Harrison

OTHERS ARE CONSIDERING IT

Frank Green, son of Dr. and Mrs. Charles S. Green, and a student in the Rushville high school, has passed the examination and has been admitted to the Citizens' Military Training Camp this summer, it was announced today.

He is the second young man in the county to be accepted for the camp. Robert E. Wolfe of rural route No. 1, Milroy, having previously enrolled in the camp after his application was approved and he passed the physical examination.

Rush county's quota for the camp is eight, but if there are more than this number of applications, all over eight will be admitted in the order their applications are received, to fill vacancies due to other counties not making up their quotas.

A number of Rushville high school boys have taken application blanks and are considering applying for admission to the camp.

Rush county boys will be assigned to Fort Benjamin Harrison. Formerly the camp for this area was at Camp Knox, Ky., but the number of camps was increased and one was assigned to the Indiana regular army post.

The Federation, at Indianapolis, turned over twenty tractors and plows and sent experts from headquarters to take charge of the work of the tractors in the field. The tractor crews are working east and west out of Owensville, the center of the tornado district.

At Griffin, which was practically wiped out by the storm, the Red Cross and Farm Bureau relief stations are working in close touch with each other in meeting the needs of all the victims of the storm who have returned to the site of the town as well as those in the surrounding country. Griffin, which was surrounded by high water for a week, now can be reached by road, and the relief work is thus facilitated. A Farm Bureau substation has been opened there. Two members of the Farm Bureau relief committee are serving as members of the citizen's committee at Owensville in taking care of the needs of that community. The Farm Bureau relief station at Princeton is in charge of Jas. G. Covert, and he is being assisted by E. T. Hunter, President of the Gibson County Farm Bureau; Jerry East, Gibson county agent; C. B. Vandever, Lowell Taylor, Sam Morrow, and many other Gibson county citizens who have given their services freely. Dispensing of supplies has been directed by Mrs. East, who has had at her command members of the various community clubs in the county.

"MILLION DOLLAR RAIN"

Kansas City, Mo., April 2—Farmers in the southwest were rejoicing today over the proverbial "million dollar rain." Reports to the weather bureau today gave precipitation general over the wheat belt, ranging from a fraction of an inch in some sections to two inches in parts of western Kansas.

The rainfall will be of inestimable value to farmers and practically assures the dry farming section of western Kansas a crop.

Chapman admitted he knew Walter Shean, star witness for the state, saying he met him last June. "I never was in New Britain, Connecticut, in my life," he answered with a steady voice looking straight into the eyes of his lawyer.

"Were you not in a store in New Britain that was robbed the night of October 12?" came the question. "No certainly not, I say I never was in New Britain in my life."

GOVERNOR FOR A DAY

Indianapolis, Ind., April 2—In the role of acting governor of Indiana, Paul Van Riper, a Boy Scout, today called several state officials before him in the executive chambers and discussed public affairs.

Dr. H. N. Sherwood, state superintendent of public instruction, was among those called. He expressed himself in favor of a ten months' school year, but Van Riper immediately vetoed the idea.

The Boy Scout governor said the present school term of nine months is too long. He occupied the governor's chair for an hour.

Boy Scouts also took over the offices of Mayor Shank and the various courts for an hour.

team who renders his part best and a flag and staff suitable for the wigwam will be given to the tribe having the largest percent of its members present at the afternoon meetings, in any of the twelve districts. A flag of the same type will be awarded to the largest class adopted from any one tribe in the district meetings and a flag will also be given for the visiting tribe having the largest attendance at any of the meetings.

The prize winners will be announced at the conclusion of the series of district meetings by the state officers, who will act as judges in making the awards.

Members of the Great Council of Indiana present for the Rushville meeting were: William A. Morris of Frankfort, great sachem; W. H. LaRue of Anderson, great senior sagamore; Otis House of Shelbyville, great junior sagamore; Arch H. Hobbs of Indianapolis, great chief of records. In addition, there were a number of district deputies here.

Miles S. Cox, as chairman of this district, kindled the council fire of the tribe at three o'clock, and following the opening ceremony, the state officers took charge and called the roll of the tribes. Matters pertaining to the advancement of the order were discussed and the great council degree was conferred on all past sachems at a special session of the Great Council of Indiana. At 7:30 the unwritten work was exemplified by Great Senior Sagamore LaRue. At 8:30 a class of ten candidates was given the adoption degree.

All seven counties of the district—Rush, Shelby, Hancock, Henry, Wayne, Fayette and Union, were represented at the meeting.

CHRISTIANITY IS MEASURED BY ACTS

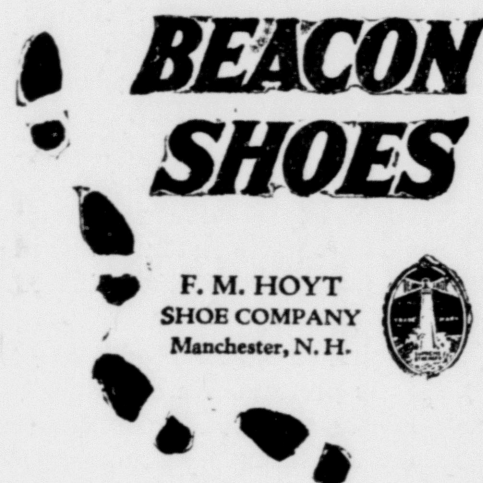

Continued from Page One
ities if they were piled up they would almost reach from earth to sky. Pilate lost an opportunity to stand for Jesus. He knew if he did it would bring the enmity of the Jews upon him and he would lose his job. Pilate knew of the miracles Jesus had performed, knew of His healing power, yet when he stood face to face with Jesus, he said, "Art thou the son of God," Jesus said, "I am."

"No man or woman ever made a mistake that some one did not suffer. Pilate made a mistake when he decided against Jesus as thousands are doing today. The evangelist pictured Jesus before the wicked king Herod. He said "I am thoroughly convinced that the instant you forsake all known sin, and accept Jesus, He will save you, but if you have Jesus, sin must be forsaken. Will you do as Pilate, wash your hands of Him. You cannot. You must accept or reject Him. You must meet Him with the sins still in your heart or meet God with Jesus as your advocate at the judgement. And one by one the devil will accuse and God will liberate if you accept Him now. "I tell you, some day you will not be ashamed of Jesus, but then it may be too late. If I confess Him before men. He will confess me before my father in Heaven."

PUT OUT WITH CHEMICAL

A small blaze originating back of a grate at the residence of Ed Pitman, 528 North Morgan street, was extinguished by firemen Wednesday night about 7 o'clock, when called to the home over the telephone to investigate the cause of smoke. A small chemical was used to extinguish the smouldering fire and no damage resulted.

Swapping a Boy For a Man

Each summer, as the time for the organization of the citizens' military training camps approaches, our attention is directed anew to the subject of preparedness. The training camp system is our strongest reliance in building up at short notice a citizens' army when a war emergency threatens. But there is another influence that contributes materially to the effectiveness of those camps and permits them to graduate their members with such a high degree of proficiency in the short time available for instruction. Many of the young men who enroll in the Army camps are high school students or have recently graduated from high schools. In most of those schools there are cadet organizations in which the boys get their first instruction in the use of arms and in military tactics. In many of them not only the manual of arms and marching drill are taught, but the cadets are initiated into battle formations, rushing the enemy, effective use of cover, and other accomplishments that make the efficient soldier.

In many of our school organizations Army officers are detailed as instructors, and Army paraphernalia is loaned for the use of the cadet corps. The school authorities sanction the military exercises, but in too many instances military drill is not recognized as a part of the regular school curriculum. Credits are not given for military proficiency as for high standing in other studies, school hour periods are not allotted for military study, and the student is not properly encouraged to enroll in the cadet corps.

Compulsory military training is antagonistic to American democracy and students in our schools should not be coerced into it; nevertheless, military instruction should be elevated to the same plane as other stu-

dies in the recognized school course. The mental discipline that comes from instant obedience to commands, the coordination of mind and body that unconsciously follows, and the training of the individual as one unit of an orderly mass, have a psychological value not found elsewhere in the school system.

The equipment of a student in worthy citizenship is decidedly lacking if he has been denied generous experience in all those factors of character building. The indirect benefits from military instruction perhaps outweigh the direct, but the knowledge gained by the young cadet will prove of immense value to him and to his country should another emergency like that of 1917 confront us.

Every school superintendent and board of education should ponder the matter and accord to military drill the part which it rightly deserves in our system of public education.

The Middleman

Many there are who, knowing the price received by the producer for a given article, and the price they pay as the final consumer, compute the difference as a toll taken by a distributor and erroneously conclude that he gets a return out of all proportion to the service he renders.

This has been common to most consumers since the war because, during those hectic days, when prices mounted so rapidly, the middleman was denounced as profiteer and robber, and it was strongly advocated that steps be taken to eliminate him from business.

The profession is an old, honorable and useful one, dating back at least to the days of Pharaoh in Egypt when Joseph prudently set aside a fifth of the grain harvests each year of the seven of plenty, held it in warehouses, and distributed it over the lean years.

The Bible does not say that Joseph was charged with being a profiteer, but he probably was.

The great difficulty is that there is so much misinformation abroad about the processes involved in bringing commodities from their source of origin and delivering them to the points of consumption.

Those who are quick to criticize the price the distributor charges overlook the important fact that between origin and consumption hundreds, perhaps thousands, of miles intervene; that in between countless services are performed, all necessary in our present stage of development.

Hunt's Washington LetterBY HARRY B. HUNT
NEA Service-Writer

WASHINGTON—The "Mellon" tax plan, providing sharp reductions in surtax rates on incomes of \$100,000 and over, is to be given a new dress and a new name before it is introduced again in Congress.

In all essentials it will still be the tax child of Mellon's dreams, which he sought in vain to have adopted and legitimized by the last Congress.

But the Mellon paternity, which was stressed when the bill was previously before Congress, will be evaded if not actually disclaimed.

Although Congress is not in session preliminary steps for the shaping of the new tax measure will be taken during the summer by members of the Ways and Means Committee of the House and Finance Committee of the Senate.

Recognizing that opposition to the original "Mellon" bill was furthered by the fact that it originated with the secretary of treasury rather than with Congress, and that the secretary would benefit personally thereby by some hundreds of thousands of dollars, administration leaders are agreed that the new bill must bear on its face at least due evidence of its congressional origin.

Wherefore we will have not the "Mellon" bill again, but the "Sweet Green" bill with the Mellon theories present but cloaked under a congressional patronymic.

THE mark at which the tax reductionists are setting their sights is a maximum surtax rate of 25 per cent.

The present law established sur-

taxes running to 40 per cent on incomes over \$500,000, as against 50 per cent on incomes over \$200,000, previously assessed.

The proposed reduction on the tax on large incomes, therefore, would be considerably sharper than that granted by the last Congress, being a cut of approximately 40 per cent of the present rate.

William R. Green of Iowa, chairman of the House committee, who opposed the Mellon rates in the last Congress, has now been won over to the 25 per cent maximum.

A campaign in favor of reduction of surtax rates to this figure is to be carried on this summer. This will be done under the guise of missionary work for "tax reform" rather than as a straight campaign for reduced surtaxes.

EVERY effort will be made, when the Congress reassembles, to get quick action on this issue of reduced surtaxes. This will be urged as desirable in order that the new rates may be made effective before the next assessment is due.

A further reason will be that action on the revenue measure is desired before developments that may reasonably be expected during the session have aroused animosities that might endanger its chances of passage.

Once the revenue bill, with its cut in the tax on big incomes, is out of the way, a deadlocked Congress won't much matter. For that is the dominating domestic issue on the administration slate.

FISHIN' DAYS
By
OTTIS CRAWFORD

I'm glad it's almost summer time. For months I've been a wishin' That I could take my hook and line And go somewhere a fishin'.

Life can hold no greater joy For which we thank our Giver, Than just to take our little boy And fish along the river.

He always has a cunning look And his eyes will sparkle bright When he says, "Dad bait my hook I don't know how to do it right."

He claps his hands in pure delight And laughs in childish glee For every time he gets a bite He wants his Dad to see.

Sometimes a minnow steals the bait And then he's sure to say "Hurry Daddy I can't wait I'm afraid he'll run away."

Sometimes by just the merest chance A sun fish grabs the hook, And then its fun to see him dance And holler, "Look-ee, Daddy Look."

I love to see him bright and gay So that if trouble ever comes, I know that he'll be sure to say That he and I were chums.

I very seldom catch a fish, But I try to please the boy And its my first and only wish To do things that he'll enjoy.

Some day a man he will become, So I intend to keep on wishin' That he'll remember all the fun, We had while we were fishin'.

To Get Early B. B. Coin

By HENRY L. FARRELL
(United Press Sports Editor)

New York, April 2—Prospects for a National League pennant in Chicago this year went up in a cloud of dust at third base recently when the Cubs were plying an exhibition game.

Rabbit Maranville hit the dirt trying for the bag and was carried off the field with a broken leg. The injury will have the immediate effect of keeping a reliable player out of the game for three months and it may have a permanent effect in slowing up a player who is no youngster and who has always relied considerably upon speed for his efficiency.

The Cubs, it might be argued, did not have an outstanding rating as a pennant possibility, but they have little or no chance now. Maranville is no Hornsby or no Frankie Frisch, but his loss to the Cubs will be terrific, because there is no one to take his place.

The loss of one player would not wreck the New York Giants, but it

would ruin the hopes of most any other club in the National League, because there is no club that has the wealth of reserve material that can be found on the New York bench.

Major league managers have been flirting with accidents such as wrecked the Cubs ever since it became the vogue to help meet the board bills at the training camps with a long series of exhibition games. Bill Killifer may not be responsible for the conditions which resulted in the loss of Maranville, because, with few exceptions, major league managers are but employers and the judgment of the business office is allowed to outrank theirs.

Managers differ in their ideas about the best method of preparing a ball club for a pennant race, but all the training plans seem to be subordinated by the wishes of the club owners to have the training camps cost them as little as possible. It is perfectly logical from a business point of view to save money during the training season, but it seems to be foolish economy to take a 20 to 1 shot on losing one or two invaluable players.

SCHOOL OFFICIALS TO GO ON "GREEN CARPET"

Summoned From Washington, Ind.,
to Explain Alleged Hiring of
Special Coach

VIOLATION OF RULES CHARGED

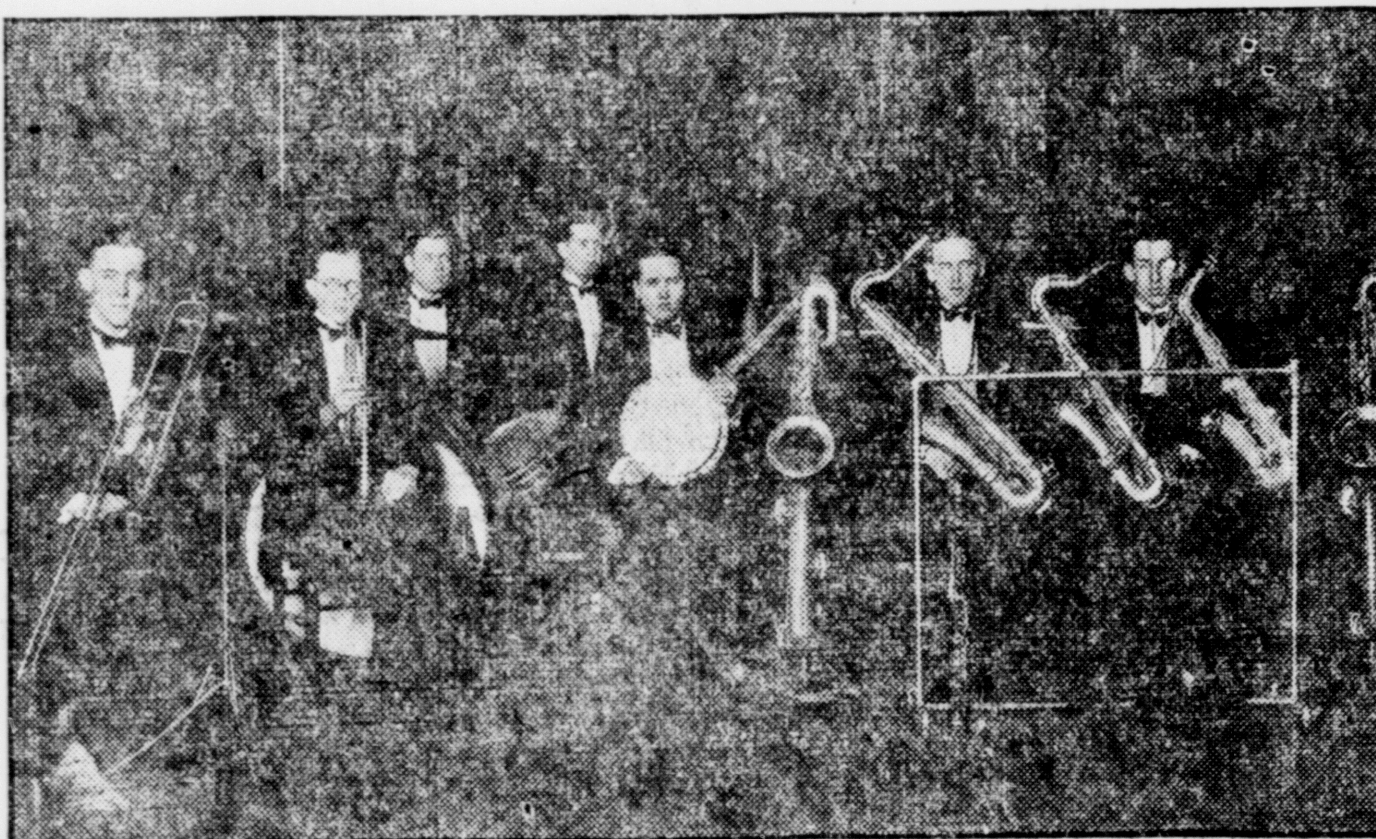

School officials of the city of Washington, Ind., have been summoned before the board of control of the Indiana High School Athletic Association to answer to complaints and charges against them. The meeting will be held Saturday in Indianapolis.

The charge to be investigated is one which will make them explain the reports that Burl Friddle, Franklin college star, spent a week in Washington training the team before the state tourney. Newspapers in Washington state that Friddle was there, and had seen the team in practice. Friddle was so enthralled over the prospects of the team, that he signed an agreement to coach the team next year.

The ruling of the state board is that no one can be brought in to assist in coaching unless he is a qualified member of the teaching faculty, and if these charges can be proven against Washington, it will mean their suspension from athletics for probably a year. The school officials summoned are John Shipp, city school superintendent; O. A. Fulkerson, principal, and R. L. McIntosh, member of the city school board.

On Tuesday evening Miss Henrietta Coleman entertained one division of her art class of the Graham High School, with a six o'clock dinner at her country home north of the city. A delicious menu was served and the guests enjoyed a most splendid social evening.

The Always Present class of the Main Street Christian church held a meeting Wednesday evening at the home of Mrs. Mary Ruhlman in North Willow street. A pleasant evening was enjoyed by the members in the business session and informal social period following. Dainty refreshments were served by the hostess.

Mr. and Mrs. Grant Miller had as their guests last Sunday, Mrs. Martha Hungerford, Mr. and Mrs. Alva Hungerford, Mr. and Mrs. Ed Pate, Mr. and Mrs. Arthur Weidner, Mrs. Ida Hungerford, Earl Hungerford, Miss Lena Hungerford, Miss Mary Weidner, Barlin Pate, Thelma Weidner and Woodrow and Lowell Weidner.

Mrs. Louis Mauzy assisted by Mrs. R. E. Jenkins entertained the Psi Iota Xi sorority Tuesday evening at her home in North Perkins street. The sorority discussed the dance to be given following the Indiana University Glee Club concert at the Annex auditorium, Friday evening. The dance will be given at the Social club rooms. The evening was closed with the serving of light refreshments.

Twenty-six members of the Rebekah Crochet Club were delightfully entertained Wednesday afternoon at the home of Mrs. Jacob Webber in West Fifth street. An important business session was held during which business matters pertaining to the club were discussed. Delicious refreshments were served during the social hour at the close of the afternoon's program.

MRS. AMY ELLEN FOX DIES NEAR MANILLA

Wife of Jacob Fox Expires Wednesday, Surviving Paralytic Stroke Only Few Days

FUNERAL FRIDAY AT 2 P. M.

Mrs. Amy Ellen Fox, wife of Jacob Fox, a well known woman of the Manila vicinity, died Wednesday noon at her home north of Manila, after an illness of a few days, having been stricken with paralysis last Sunday.

She had lived in the Manila vicinity for 23 years, and her death was quite a shock to her many friends of that community. Funeral services will be held at two o'clock Friday afternoon at the late residence, with the Rev. John W. Bennett, of Manila, officiating. Burial will be made in Forest Hill cemetery near Manila.

Mrs. Fox was the daughter of the late James and Angeline Blackford, and was born in Shelby county, near Manila, October 1, 1865, being 59 years of age at the time of death. Besides the husband, Jacob Fox, she leaves two daughters, Mrs. Clara Gross of Manila, and Miss Blanche Fox at home; one son, Ralph Fox of Indianapolis and one brother, Zador Blackford of Shelbyville.

MRS. JOHN W. LEWIS IS DEAD

Was 69 Years Old And Had Been Ill With Bright's Disease

Mrs. Mary Hite Lewis, wife of John W. Lewis, is dead at her home a mile south of Andersonville, Franklin county, having expired Wednesday after a long illness with Bright's disease. The deceased was 69 years of age.

Besides the husband, she is survived by three children, Edward Lewis of Nebraska, William D. Lewis of Greenfield and Mrs. Hattie Reese, at home.

The services will be held Sunday afternoon at 1:30 o'clock at the United Brethren church in Andersonville, and burial will be made in the Hopewell cemetery.

around \$150,000,000 for the name of "Dodge Brothers"—a name which two and a half decades ago was worth about \$4 a day when signed on a machine shop payroll and accompanied by nine hours work.

That two Detroit women, the widows of the Dodge brothers, are among the world's richest women.

That a large stock or bond issue may next come onto the market and that another big automobile concern, which may include other companies, may be advanced to offer competition to General Motors.

That E. L. Doheny, the man who personally discovered the Mexican oil fields, had sold control of his holdings outside of the United States and will confine himself to his California properties.

That through the deal the Standard Oil Company of Indiana, a week ago without interests in foreign oil, is now one of the largest factors in the foreign oil business.

That the Chase Banking interests and British interests headed by Lord Inverworth, are allied with the Standard Oil of Indiana in purchasing Doheny's property, but the Standard retains control.

These were some of the things that first hit Wall street in its study of what had happened.

Back of the two transactions lies romance such as seldom has been in all the romantic history of American fortunes.

First came the romance of the Dodge Brothers—two mechanics who worked for so much a day; made a little money and then went broke in

the bicycle business; made a little more; invested it with Henry Ford and in about 15 years became among the nation's wealthiest.

Then the brothers died, leaving their fortunes to their widows.

KEEP LOOKING YOUNG

It's Easy—If You Know Dr.
Edwards' Olive Tablets

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action yet always effective. They bring about that natural buoyancy which all should enjoy by toning up the liver and clearing the system of impurities.

Dr. Edwards' Olive Tablets are known by their olive color. 15c and 30c.

GASOLINE TAX TOOK EFFECT WEDNESDAY

Motorists Began Paying an Increase
of One Cent a Gallon Due to New
Law

ENACTED BY LEGISLATURE

Motorists began paying an increase of one cent in the price of gasoline Wednesday as the increased

gasoline tax enacted by the 1925 legislature went into effect.

This increase will make the price of gasoline 23.2 cents for the low test and 27 cents a gallon for the high test.

The tax was increased from two to three cents a gallon by the legislature. The two-cent tax had been in effect since 1923.

The total revenue obtained from the tax during a twelve month period will be approximately \$8,000,000 according to estimates.

Two-thirds of this amount will go to the state highway commission and the remainder, which represents the revenue obtained from the increase, will go to counties, cities, and towns for road building and maintenance.

Three-eighths of the revenue obtained from the increase will be divided among the counties equally, three-eighths will be distributed on a basis of comparative road mileage, and one fourth will go to the cities and towns.

E. Pinkham's Vegetable Compound
Restored Mrs. Auger's Strength

Lowell, Massachusetts. — "I read about Lydia E. Pinkham's Vegetable Compound in the little books that you send around and I felt very good after I had taken a couple of bottles of it. I had been in the hospital and felt pretty well at first but I went down to nothing. I was weak and had to lie in bed almost all day. I had dizzy and faint spells, pains in my back and lower parts and was so nervous I could not bear my children around. I hope the Vegetable Compound helps other women as it did me. I do all my own work now and feel so well. I have told my friends about it and my sister and my aunt." — Mrs. Olive Auger, 19 Howard Street Lowell, Massachusetts.

Over 200,000 women have so far replied to our question, "Have you received benefit from taking Lydia E. Pinkham's Vegetable Compound?"

98 out of every 100 of the replies say, "Yes" and because the Vegetable Compound has been helping other women it should help you.

HOOSIERS IN WASHINGTON ALWAYS FLOCK TOGETHER

Washington, April 2—Once a Hoosier always a Hoosier. That spirit makes all Indians in Washington a clanish lot. They flock together. They boost each other and boost their home state. They are Hoosiers, proud. And it is this spirit which makes possible the Indiana Society of Washington. The society provides a monthly rally of Hoosiers. Two hundred Indians were present at the March meeting and promoted genuine fellowship. Secretary of Labor James J. Davis—Jimmy Davis to those who know him best—was a speaker. He does not forget that he got his big start toward success when he lived at Elwood and Anderson, Ind. He is listed as a Pennsylvanian, but he brags that he really is a Hoosier. Among those attending the meeting were Senator and Mrs. Watson, Representative and Mrs. Vestel, Mr. and Mrs. Harvey W. Wiley, Mr. and Mrs. Pratt Loveland, Mr. and Mrs. George B. Lockwood and many others equally well known in Indiana.

Montpelier—Indiana Bell Telephone company has installed new equipment in the exchange here.

Sale of One of Rush County's Best Farms

AT ONE O'CLOCK

Saturday, April 4, 19

I will offer at private sale, at Douglas Morris' law office, Miller Law Building, in Rushville, Indiana, one of the most fertile, best improved and best drained and fenced farm in all of Rush County.

The farm contains, according to deeds, 180⅓ acres, but an actual survey will show more acres. It was the beautiful homestead of the late Joseph and Gertrude Winship, on the improved highway two miles north of Richland. The homestead residence is one of the finest in the County, and the tenant house is a good one. The farm has barn, granary, double corn cribs, garage and all out-buildings required for a first class home. It is ready for occupancy without repairs, and its fertile soil needs no resting. Here is the opportunity to procure one of the best farms ever offered for sale in Rush County.

Terms

One-third cash, one-third in nine (9) months and ⅓ in eighteen (18) months, deferred payments to draw six per cent (6%) interest and secured by first mortgage.

"Learning to Love", Princess
Ten well-known photoplayers are in the cast of Constance Talmadge's First National comedy, "Learning to Love."
In addition to Antonio Moreno, who is Constance's new leading man, the cast includes Wallace Mac-Donald, Emily Fitzroy, Johnny Harron, Ray Hallor, Edythe Chapman, Al Goulding, Byron Munson, Edgar Norton and Percy Williams
"Learning to Love" is a modern society comedy in which Constance shows modern girls the various ways to capture a husband. It is a First National attraction, written for Joseph M. S. Henck by John Emerson and Anita Loos.
The picture is now showing at the Princess theatre.

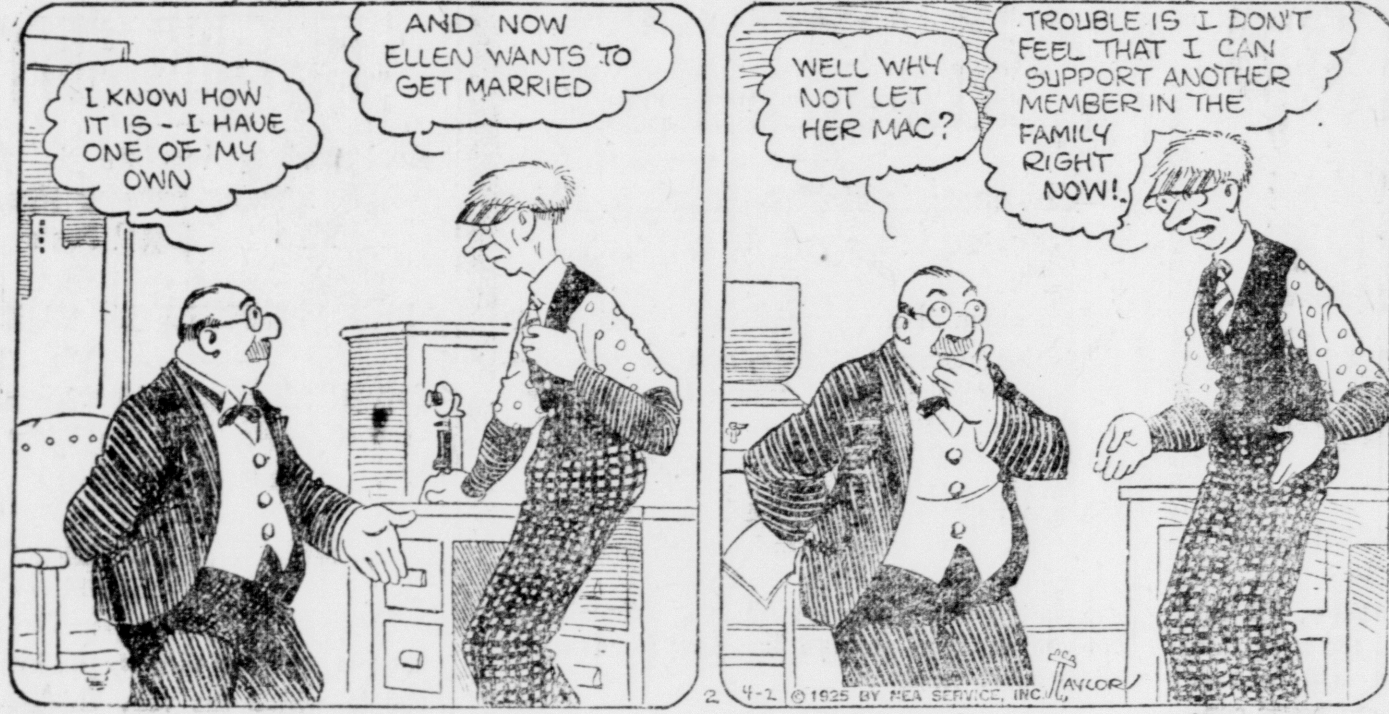

"Smouldering Fires," Castle
There are two classes of persons who can learn a lesson from "Smouldering Fires," Universal-Jewel-Clare Brown production which opened Wednesday in the Castle Theatre. They are the young man who sees visions of luxury and idleness in becoming the husband of a woman much older than himself, and the middle-aged woman who sees happiness as the wife of a youth half her age.
However, the lesson will be gleaned through the medium of as fine entertainment as ever has been seen on the screen, for there are many pleasant diversions from the lesson part of the story, which, probably, was not intended to teach any lesson at all.
Pauline Frederick and Laura La Plante are co-starred in the picture.

No Room for Rheumatism

Chiropractic Health Talk No. 204
By H. V. McCully, D. C., Ph. C.

Rheumatism is a very common affliction. It is as unnecessary and undesirable as it is common, for in the normal human organism there is no room for rheumatism. It can only affect the body that is physically below par.

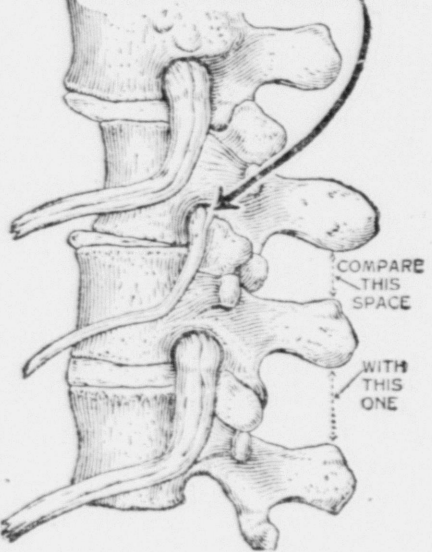

Rheumatism is due to dissemination through the system of waste products — poisons — which are eliminated in the normal body. Because the eliminative system is not functioning properly, these poisons are distributed where they cause trouble.

The primary cause is interference with nerve transmission of the vital energy — the motive power — which animates the eliminative organs. This interference occurs at the spine, where it may be corrected by Chiropractic Spinal Adjustments skillfully applied.

Wonderful Improvement After Adjustments

"I suffered a great deal from rheumatism in the joints, shoulders and arms. I was also constipated, and the medicine I took and the doctor to whom I went did me no good. Two months ago I took a series of Chiropractic adjustments. I made a wonderful improvement and since then have been feeling fine and the rheumatism has practically left me." Mrs. Margaret Cooper, Chiropractic Research Bureau, Statement No. 2093-N.

INSECTS A MENACE TO FOOD SUPPLY

Most Serious Warfare is Being Fought Today Between Human Race and Insect Pests

PESTS CONSTANTLY GAINING

Cotton Boll Weevil, Most Noted of Insect Pests, Was Originally an Unimportant Bug

By DALE VAN EVERY
(U. P. Staff Correspondent)

Washington, April 2—The most serious warfare ever waged by man, one in which the very existence of the race depends, is being fought today with every backyard a battlefield and every farm a major field.

It is the struggle between the human race and the insects to determine which will flourish on the earth. The city dweller so far is oblivious to this conflict, which he feels only in the increased cost of food and clothing. The farmer feels it keenly in that crop wastage caused by insects costs him dollars and cents.

But the experts of the United States Department of Agriculture, who are making man's organized efforts to conquer the insect enemies, looking beyond the present cost in money, wasted labor, and destroyed crops, regard the future of the struggle as potentially the greatest crisis ever to confront the race.

Insect Pests Gaining

Despite greatly accelerated resistant measures being taken by the department, destructive insect pests are constantly gaining. The most the department has been able to do in many cases is to retard the spread of insect blights. Insect depredations among American crops cost hundreds of millions of dollars annually and each year cost more than the last. If the increase in insect

Child-birth

Here is a wonderful message to all expectant mothers!

When the Little One arrives, you can have that moment more free from suffering than you have perhaps imagined. An eminent physician, expert in this science, has shown the way. It was he who first produced the great remedy, "Mother's Friend," Mrs. C. J. Hartman, Scranton, Pa., says: "With my first two children I had a doctor and a nurse and then they had to use instruments, but with my last two children I used 'Mother's Friend' and had only a nurse; we had no time to get a doctor because I wasn't very sick—only about ten or fifteen minutes." Use "Mother's Friend" as our mothers and grandmothers did. Don't wait, start today, and meanwhile write to Bradford Regulator Co., B.A. 16, Atlanta, Ga., for a free illustrated book containing information every expectant mother should have. "Mother's Friend" is sold by all drug stores—everywhere.

"Baby Market"

Markets where babies are sold are the objectives of the latest investigation by Los Angeles authorities. Around \$200 is the average price charged for infants in houses where expectant mothers are kept, officials charge. One arrest has been made in connection with the investigation, that of Mrs. Hazel Sims. She was traced through an advertisement in a local newspaper which read, "Adoption. Have private home for unfortunate girls. Babies adopted." She refuses to comment on the charges.

destruction continues at its present rate the time will come when what the insect takes will amount to so much there will not be enough left to satisfy man's needs.

The new insect menace appeared within the last generation. Conditions brought into effect by civilization gave the insect its great opportunity. Originally, under natural conditions, for every insect there was a natural enemy. Parasites infested them. Birds ate them. Other carnivorous insects ate them. One species of insects lived on the eggs of another species. This natural balance restrained dangerous kinds of insects from becoming too numerous.

Nature's balance was distorted by civilization. Man denuded vast stretches of country of its natural forest. Bird life was restricted. With natural conditions destroyed, various species of insects found a sudden opportunity to expand.

International commerce spread insects in strange parts of the world where freed from their natural enemies, they could expand unhampered. Plants brought from Asia to America might carry two or three specimens of an insect, which innocuous in its homeland, found in its new environment a chance to flourish untroubled by its natural enemies. Immediately the strange insect multiplies and becomes a menace.

The Cotton Boll Weevil

The cotton boll weevil, most noted of insect pests, was originally a little known and unimportant bug which lived on wild cotton in the mountains of Mexico. Its food supply was strictly limited. Introduced by chance in the fringes of the cottonbelt in southern Texas, it suddenly found in the endless fields of cultivated cotton a limitless food supply.

With a birth rate which it has been estimated produces over 12,000,000 offspring to a single pair of weevils in one season, the pest spread like wild fire through the cotton fields in the south. It lodged in Texas in 1892. Despite all efforts to resist the plague it spread as far north as North Carolina in the succeeding 30 years. The bug which was of no importance in its natural wild state had been given an opportunity by the unnatural conditions brought about by civilization to become a

menace to one of the staple crops of the country, costing annually losses of from \$200,000,000 to \$300,000,000.

The history of the boll weevil illustrates the general insect menace. Pests which in their natural state faced so serious a fight for existence they barely were able to get along at all have suddenly been presented with an abounding food supply, been freed of their hereditary enemies, and as a result have multiplied with speed and vigor.

GING CONTESTANT THIRD

Carthage High School Girl Awarded
\$50 Prize and Will Represent
County in District

Miss Grace Overman, representing the Carthage high school, won the county oratorical contest at the Graham Annex auditorium Wednesday night, and the right to represent the county in the district contest, the time and place for which have not been announced.

The other contestants were Miss Carolyn Wilson, representing the Rushville high school, who won second place, and Miss Clara Cortner of Ging, who was awarded third place by the judges.

All three spoke on "The Constitution" and the first place winner received a check for \$50.00, the second one for \$25.00 and the third \$15.00. The prizes were given by the Rush County Bar association, which sponsored the contest in this county.

Russell Tittsworth was chairman for the county contest, as the representative of the bar association, and presided at the program last night.

The judges were John Morris of Newcastle, an attorney and mayor of Newcastle; Earl Lines of Connersville, Fayette county superintendent of schools, and Raymond Rolfes, a Greensburg attorney. Paul Benson of Newcastle was unable to act on account of illness and Mrs. Rolfes came in his place.

The invocation was delivered by the Rev. Gibson Wilson, pastor of the First Presbyterian church, and following a brief statement by the chairman, announcing the purpose and scope of the National Oratorical contest, the three contestants delivered their orations. Miss Cortner speaking first, Miss Overman second and Miss Wilson third.

While the judges retired to bring in their decision, a short musical program was given. Miss Edna Lucas of the high school playing two violin solos, with piano accompaniment by Miss Virginia Lucas, and Miss Alice Piersol, county music supervisor, singing a solo. Mrs. B. D. Forthing played the piano accompaniment.

An audience of approximately 300 persons attended the contest. Mr. Tittsworth expresses regret that no more interest had been shown by the county high schools in the oratorical competition, asserting that public speaking deserved just as much attention as basketball. He was applauded for this remark.

Mr. Tittsworth outlined the steps in the contest, which would terminate in the final event in which the regional winners will compete at Washington, D. C. The judges will be the president of the United States, and members of the supreme court. Money prizes will be awarded in all of the contests.

VISIT COUNTY SCHOOLS TO PROMOTE MUSIC WORK

Homer S. Dunn and Mrs. Swain of
Indianapolis Inspect Different
Types in Tour Today

STATE OFFICIALS INVITED

Several schools in the county were being visited today by Homer S. Dunn, representing the Music Art Society of America and Mrs. Swain, both of Indianapolis. The object of their visit was to assist in promoting the music work, and especially Music Memory work in the schools.

They visited a representative of each type of school in the county, of which there are several in existence here, from one room schools to the higher branches of six year consolidation.

The state board of education, state superintendent Noble Sherwood, Sen. Reitzel of Hendricks county and a number of other prominent educators of the state, have been extended invitations to visit the schools of Rush county next week, and it is expected that they will decide on a date, and study the local systems.

TO DISPLAY SPRING FASHIONS

Newest Wearing Apparel to be on
View at Style Show Tonight

The fashions for spring, in gorgeous array, will be displayed by living models at the style show to be given by the A. A. G. club of the high school at the Graham Annex auditorium tonight at eight o'clock. Rushville merchants are co-operating to make the show a success and the advance sale of tickets indicates a lively interest being taken in the event.

The exhibit of all that's new in men's, women's and children's wearing apparel, will demonstrate forcibly, it was pointed out today, that Rushville stores carry stocks of wearing apparel that follow the style trend very closely, and at the same time adhere to a high standard of quality.

The show will be in three acts and during intermissions there will be musical numbers.

Again for \$50 Award

The district meeting of the Great Council of Indiana, Improved Order of Red Men, held here Wednesday afternoon and evening, the sixth in the series of twelve being held in the state, was characterized by state officers as the best one held thus far.

The program was carried out as planned, culminating with the work in the adoption degree given at 8:30 in the evening by the championship Gwynneville degree team, which won the Indiana championship last year and is competing for the same honor again this year.

A prize of \$50 will be given to the degree team presenting this degree at any of the district meetings, each team to compete in its own district. The work of the Gwynneville team here yesterday was in competition for this prize. The team has been invited to give the adoption degree at the Frankfort district meeting next week.

A prize of \$10 in gold will also be awarded to the member of the degree team.

SECOND APPEAL FOR FREEDOM REFUSED

William D. Shepherd Suffers Setback
in His Effort to Obtain Liberty on
Bail

WILL BE ARRAIGNED APRIL 9

Chicago, Ill., April 2—William D. Shepherd suffered a setback today when Judge Hopkins denied a second appeal for freedom on bail pending trial on the charge of murdering Billy McIntock.

Shepherd will be arraigned on April 9 on the indictment charging him with murder.

William Stewart, chief defense attorney, announced he would make a motion to quash the indictment. Stewart also said he would continue his fight to relieve Shepherd on a writ of habeas corpus proceeding.

The court's decision in refusing to free Shepherd on bail followed a bitter debate between Stewart and State's attorney Crowe.

Stewart presented numerous affidavits by persons who declared they would not believe certain state's witnesses under oath.

Crowe protested that these affidavits were incompetent and did not have any bearing on the guilt or innocence of Shepherd.

Judge Hopkins ruled that Crowe was right and for the second time refused to allow Shepherd his freedom.

Shepherd appeared downcast in his second hearing.

SOUTHERN INDIANA RELIEF

Indiana Farm Bureau Federation
Program in Third Phase With
Plowing Under Way

Indianapolis, Ind., April 2—With a thousand or more volunteers in the field clearing away the debris left by the tornado which swept over the southwestern part of Indiana on the evening of March 18, and a battery of twenty tractors and plows breaking ground in the wake of the cleanup crews, the Indiana Farm Bureau Federation tornado relief program entered its second and third phases this week.

The Federation relief program, in brief, called for, first, the meeting of the need for food, shelter and clothing in the stricken district, and these needs were met with dispatch. The second phase was the clearing of the land so that the spring plowing could get under way and the third was the breaking of the land.

Co-operating to the fullest extent possible with the Red Cross, the Federation experts to carry forward as far as funds will permit the work of permanent rehabilitation in the ruined area. Through an interchange of supplies with the Red Cross, the Federation has been able to help meet the requirements of practically all the residents of the rural territory which suffered at the hands of the storm. Approximately eighty-five farms were leveled by the storm, and about the same number suffered heavily in the loss of stock and damage to homes, barns and other buildings. To all needing them the Farm Bureau relief station supplied tents, clothing, food, bedding, stoves and other household necessities and this service aided greatly in getting persons who were being cared for by neighbors back on their own lands. A complete survey was made of the needs and financial condition of every resident of the rural territory hit by the storm. Four carloads of supplies were received by the Farm Bureau from Chicago, for distribution among the storm victims. Appeals were sent to all Indiana Farm Bureau units for funds and these are now beginning to come in rapidly. The International Harvester Company, through arrangements made by Perry H. Cane, general secretary of

THE TREASURE CHEST

The old treasure chest today
was opened at the Daily Repub-
lican office, and this time re-
vealed the fact that the Rush-
ville Natural Gas Company has a
customer owing them for
\$2.40 which they have forgotten
all about, but which is now ready
to be paid in a check. If the
person in charge of the collec-
tions for the gas company will
call at the Republican office, the
collection can be made.

And here is another one. Would you think a laundry bill for seven cents could go by unaccounted for? If the Rushville Laundry will send their collector, he will be cited to a place where a customer has 7 cents for him, and a real for sure bank check will be issued for that amount.

DENIES MURDER OF OFFICER

(By United Press)

Hartford, Conn., April 2—Gerald Chapman, "ace of crooks" closed his own defense on a murder charge here today and arguments began this afternoon. By tomorrow the jury which Chapman himself picked, may be considering the evidence.

Chapman, sitting in the witness chair with a perfect "poker face," quietly answered questions, making a categorical denial of all the charges against him, and was sarcastic on cross examination.

"I chance my name like I do my collar," he told Prosecutor Hugh Alcorn, who became inquisitive about his many names.

Once he said when his lawyer objected to questions, "Let them ask me. I will tell them."

He wound up his testimony with a statement made to the jury voluntarily and with the same characteristic

SERMON BY EVANGELIST

People Have so Many Lost Oppor-
tunities, if Piled up, They Would
Reach to the Sky

The world's greatest question, or "What shall I do with Jesus, which is called Christ?" was the text of the sermon which the evangelist Edward Thomas preached at the St. Paul's M. E. church Wednesday evening. Tonight he will preach on the subject "The Fear of Man."

He read his text from Matthew 27, and said in part:

"Nineteen hundred years ago, a star shone brightly over a manger in Bethlehem and over the moonlit hills of Judea; a myriad of angels heralded the birth of the most wonderful man-child ever born. A man born to be a marvelous teacher, and one who should and did, create in men the spirit of brotherly love and kindness and no matter what he said or did, the Jews rejected him and finally murdered him without a cause. And today men are rejecting and insulting him and crucifying Him for the same senseless reason.

"Pilate the murderer said 'What shall I do with Jesus?' That is the question each one of us must answer for himself. When God brings an influence to encourage a man to take his stand for Christ, all Hell gets busy to discourage him. Pilate had things to discourage him. The dream of his wife the consciousness of finding no fault in Him, still he was not brave enough but let the wishes of the mob sway him.

"Your Christianity is measured by your actions. To sit in the comfortable church, hear the able sermons, the good singing, only sit and listen, while that is commendable, it is not making a Christian.

HURRY UP RUSHVILLE!

The residents of the village of Freetown, down in Jackson county, are building their basketball boys a gymnasium. Freetown is the team that won the sectional and went to Richmond, and was defeated by Rushville in their first game. Freetown hasn't had a place to play, and the citizens are all pepped up over their prospects for next year. Ninety-six shares of stock in the gymnasium project has been pledged at \$25 a share, and 24 shares remain to be sold in order to guarantee the building. Freetown has a population of 250 people—babies, boys and girls, and grown-ups. Rushville has a population of 6,000, but the gymnasium is not as far advanced as the project down at Freetown.

TRANSFER DETAILS BEING WORKED OUT

Actual Sale of Dodge Brothers Motor
Co., to New York Brokers is
Completed

LARGEST SALE ON RECORD

Dillon, Read and Company, Ten
Years Ago Unknown, Humbles
Mighty Wall Street Interests

(By United Press)

Detroit, Mich., April 2—Final details were being worked out today for the actual transfer of the management and property of the Dodge Brothers Motor Company to Dillon, Read and Company, in the largest automobile deal ever made.

A. C. Schwartz and two associates representing the New York brokers, refused to name the amount but it is thought, to be \$145,000,000. The next record sale made was the purchase by Henry Ford of the minority stock of his company at \$106,500,000.

The formal statement issued by Schwartz and associates emphatically denied that any consolidation, of Dodge with any other company or companies was contemplated. It was the intention to continue Dodge Brothers, Inc., as an independent concern without a change in personnel or management, they said.

Wesson Seymour, son-in-law of Mrs. John F. Dodge, represented the Dodos at the conference yesterday. John Ballantyne, treasurer of Dodge Brothers, confirmed the sale.

E. G. Wilmer and S. W. Howland, assisted Schwartz. Wilmer is chairman of the board of directors of the Goodyear Tire and Rubber Company.

New York, April 2—Wall street stood back this morning to take a searching look at the pair of gigantic sales announced after the close of the market yesterday.

The announcements were: Sale of Dodge Brothers' Automobile concern to a group headed by Dillon, Read and Company of New York.

Sale of E. L. Doheny control of his Pan-American Petroleum and Transport Company to the Standard Oil of Indiana and others.

In surveying the transactions Wall street found:

That Dillon, Read and Company 10 years ago unknown on Wall street and until a week ago unknown outside of Wall street had challenged J. P. Morgan and the DuPonts and humbled those mighty interests in a gigantic struggle.

That probably the largest all-cash transaction in Wall street history had resulted.

That the purchasers had paid

SECOND YOUNG MAN IS ACCEPTED FOR TRAINING

Frank Green, Rushville High School
Student, to Attend Citizen's Camp
At Fort Harrison

OTHERS ARE CONSIDERING IT

Frank Green, son of Dr. and Mrs. Charles S. Green and a student in the Rushville high school, has passed the examination and has been admitted to the Citizens' Military Training Camp this summer, it was announced today.

He is the second young man in the county to be accepted for the camp. Robert E. Wolfe of rural route No. 1, Milroy, having previously enrolled in the camp after his application was approved and he passed the physical examination.

Rush county's quota for the camp is eight, but if there are more than this number of applications, all over eight will be admitted in the order their applications are received, to fill vacancies due to other counties not making up their counties.

A number of Rushville high school boys have taken application blanks and are considering applying for admission to the camp.

Rush county boys will be assigned to Fort Benjamin Harrison. Formerly the camp for this area was at Camp Knox, Ky., but the number of camps was increased and one was assigned to the Indiana regular army post.

RURAL RESIDENTS ARE BACK ON FARMS

Continued from Page One
The Federation at Indianapolis, turned over twenty tractors and plows and sent experts from headquarters to take charge of the work of the tractors in the field. The tractor crews are working east and west out of Owensville, the center of the tornado district.

At Griffin, which was practically wiped out by the storm, the Red Cross and Farm Bureau relief stations are working in close touch with each other in meeting the needs of all the victims of the storm who have returned to the site of the town as well as those in the surrounding country. Griffin, which was surrounded by high water for a week, now can be reached by road, and the relief work is thus facilitated. A Farm Bureau substation has been opened there. Two members of the Farm Bureau relief committee are serving as members of the citizen's committee at Owensville in taking care of the needs of that community. The Farm Bureau relief station at Princeton is in charge of Jas. G. Covert, and he is being assisted by E. T. Hunter, President of the Gibson County Farm Bureau. Jerry East, Gibson county agent; C. B. Vandever, Lowell Taylor, Sam Morrow, and many other Gibson county citizens who have given their services freely. Dispensing of supplies has been directed by Mrs. East, who has had at her command members of the various community clubs in the county.

"MILLION DOLLAR RAIN"

Kansas City, Mo., April 2—Farmers in the southwest were rejoicing today over the proverbial "million dollar rain." Reports to the weather bureau today gave precipitation general over the wheat belt, ranging from a fraction of an inch in some sections to two inches in parts of western Kansas.

The rainfall will be of inestimable value to farmers and practically assures the dry farming section of western Kansas a crop.

Chapman admitted he knew Walter Sheen, star witness for the state, saying he met him last June. "I never was in New Britain, Connecticut, in my life," he answered, with a steady voice looking straight into the eyes of his lawyer.

"Were you not in a store in New Britain that was robbed the night of October 12?" came the question.

"No certainly not," he said. "I never was in New Britain in my life."

GOVERNOR FOR A DAY

Indianapolis, Ind., April 2—In the role of acting governor of Indiana, Paul Van Riper, a Boy Scout, today called several state officials before him in the executive chambers and discussed public affairs.

Dr. H. N. Sherwood, state superintendent of public instruction, was among those called. He expressed himself in favor of a ten months' school year, but Van Riper immediately vetoed the idea.

The Boy Scout governor said the present school term of nine months is too long. He occupied the governor's chair for an hour.

Boy Scouts also took over the offices of Mayor Shank and the various courts for an hour.

team who renders his part best and a flag and staff suitable for the wigwam will be given to the tribe having the largest percent of its members present at the afternoon meetings, in any of the twelve districts. A flag of the same type will be awarded to the largest class adopted from any one tribe in the district meetings and a flag will also be given for the visiting tribe having the largest attendance at any of the meetings.

The prize winners will be announced at the conclusion of the series of district meetings by the state officers, who will act as judges in making the awards.

Members of the Great Council of Indiana present for the Rushville meeting were: William A. Morris of Frankfort, great sachem; W. H. LaRue of Anderson, great senior sagamore; Otis House of Shelbyville, great junior sagamore; Arch H. Hobbs of Indianapolis, great chief of records. In addition, there were a number of district deputies here.

Miles S. Cox, as chairman of this district, kindled the council fire of the tribe at three o'clock, and following the opening ceremony, the state officers took charge and called the roll of the tribes. Matters pertaining to the advancement of the order were discussed and the great council degree was conferred on all past sachems at a special session of the Great Council of Indiana. At 7:30 the unwritten work was exemplified by Great Senior Sagamore LaRue. At 8:30 a class of ten candidates was given the adoption degree.

All seven counties of the district—Rush, Shelby, Hancock, Henry, Wayne, Fayette and Union, were represented at the meeting.

CHRISTIANITY IS MEASURED BY ACTS

Continued from Page One
ities if they were piled up they would almost reach from earth to sky. Pilate lost an opportunity to stand for Jesus. He knew if he did it would bring the enmity of the Jews upon him and he would lose his job. Pilate knew of the miracles Jesus had performed; knew of His healing power, yet when he stood face to face with Jesus, he said, "Art thou the son of God?" Jesus said, "I am."

"No man or woman ever made a mistake that some one did not suffer. Pilate made a mistake when he decided against Jesus as thousands are doing today.

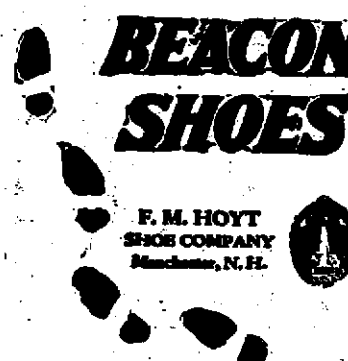

The evangelist pictured Jesus before the wicked king Herod. He said "I am thoroughly convinced that the instant you forsake all known sin, and accept Jesus, He will save you, but if you have Jesus, sin must be forsaken. Will you do as Pilate, wash your hands of Him. You cannot. You must accept or reject Him. You must meet Him with the sins still in your heart or meet God with Jesus as your advocate at the judgement. And one by one the devil will accuse and God will liberate if you accept Him now."

"I tell you, some day you will not be ashamed of Jesus, but then it may be too late. If I confess Him before men. He will confess me before my father in Heaven."

PUT OUT WITH CHEMICAL

A small blaze originating back of a grate at the residence of Ed Pitman, 528 North Morgan street, was extinguished by firemen Wednesday night about 7 o'clock, when called to the home over the telephone to investigate the cause of smoke. A small chemical was used to extinguish the smouldering fire and no damage resulted.

Swapping a Boy For a Man

Each summer, as the time for the organization of the citizens' military training camps approaches, our attention is directed anew to the subject of preparedness. The training camp system is our strongest reliance in building up at short notice a citizens' army when a war emergency threatens. But there is another influence that contributes materially to the effectiveness of these camps and permits them to graduate their members with such a high degree of proficiency in the short time available for instruction. Many of the young men who enroll in the Army camps are high school students or have recently graduated from high schools. In most of these schools there are cadet organizations in which the boys get their first instruction in the use of arms and in military tactics. In many of them not only the manual of arms and marching drill are taught, but the cadets are initiated into battle formations, rushing the enemy, effective use of cover, and other accomplishments that make the efficient soldier.

In many of our school organizations Army officers are detailed as instructors, and Army paraphernalia is loaned for the use of the cadet corps. The school authorities sanction the military exercises, but in too many instances military drill is not recognized as a part of the regular school curriculum. Credits are not given for military proficiency as for high standing in other studies, school hour periods are not allotted for military study, and the student is not properly encouraged to enroll in the cadet corps.

Compulsory military training is antagonistic to American democracy and students in our schools should not be coerced into it; nevertheless, military instruction should be elevated to the same plane as other studies.

dies in the recognized school-course. The mental discipline that comes from instant obedience to commands, the coordination of mind and body that unconsciously follows, and the training of the individual as one unit of an orderly mass, have a psychological value not found elsewhere in the school system.

The equipment of a student in worthy citizenship is decidedly lacking if he has been denied generous experience in all those factors of character building. The indirect benefits from military instruction perhaps outweigh the direct, but the knowledge gained by the young cadet will prove of immense value to him and to his country should another emergency like that of 1917 confront us.

Every school superintendent and board of education should ponder the matter and accord to military drill the part which it rightly deserves in our system of public education.

The Middleman

Many there are who, knowing the price received by the producer for a given article, and the price they pay as the final consumer, compute the difference as a toll taken by a distributor and erroneously conclude that he gets a return out of all proportion to the service he renders.

This has been common to most consumers since the war because, during those hectic days, when prices mounted so rapidly, the middleman was denounced as profiteer and robber, and it was strongly advocated that steps be taken to eliminate him from business.

The profession is an old, honorable and useful one, dating back at least to the days of Pharaoh in Egypt when Joseph prudently set aside a fifth of the grain harvests each year of the seven of plenty, held it in warehouses, and distributed it over the lean years.

The Bible does not say that Joseph was charged with being a profiteer, but he probably was.

The great difficulty is that there is so much misinformation abroad about the processes involved in bringing commodities from their source of origin and delivering them to the points of consumption.

Those who are quick to criticize the price the distributor charges overlook the important fact that between origin and consumption hundreds, perhaps thousands, of miles intervene; that in between countless services are performed, all necessary in our present stage of development.

WASHINGTON—The "Mellon" tax plan, providing sharp reductions in surtax rates on incomes of \$100,000 and over, is to be given a new dress and a new name before it is introduced again in Congress.

In all essentials it will still be the tax child of Mellon's dreams, which he caught in vain to have adopted and legitimized by the last Congress.

But the Mellon pattern, which was stressed when the bill was previously before Congress, will be avoided, if not actually disclaimed.

Although Congress is not in session, preliminary steps for the shaping of the new tax measure will be taken during the summer by members of the Ways and Means Committee of the House and Finance Committee of the Senate.

Recognizing that opposition to the original "Mellon" bill was furthered by the fact that it originated with the secretary of treasury rather than with Congress, and that the secretary would benefit personally thereby by some hundreds of thousands of dollars, administration leaders are agreed that the new bill must bear, on its face at least, due evidence of its congressional origin.

Wherefore, we will have not the "Mellon" bill again, but the "Smoot-Green" bill with the Mellon theories present but cloaked under a congressional patronymic.

THE mark at which the tax reductionists are setting their sights is a maximum surtax rate of 25 per cent.

The present law established sur-

taxes running to 40 per cent on incomes over \$500,000, as against 55 per cent on incomes over \$200,000, previously assessed.

The proposed reduction on the tax on large incomes, therefore, would be considerably sharper than that granted by the last Congress, being a cut of approximately 40 per cent of the present rate.

William R. Green of Iowa, chairman of the House committee, who opposed the Mellon rates in the last Congress, has now been won over to the 25 per cent maximum.

A campaign in favor of reduction of surtax rates to this figure is to be carried on this summer. This will be done under the guise of missionary work for "tax reform" rather than as a straight campaign for reduced surtaxes.

EVERY effort will be made, when the Congress reassembles, to get quick action on this issue of reduced surtaxes.

This will be urged as desirable in order that the new rates may be made effective before the next assessment is due.

A further reason will be that action on the revenue measure is desired before developments that may reasonably be expected during the session have aroused animosities that might endanger its chances of passage.

Once the revenue bill, with its cut in the tax on big incomes, is out of the way, a deadlocked Congress won't much matter. For that is the dominating domestic issue on the administration slate.

FISHIN' DAYS
By OTTIS CRAWFORD

I'm glad it's almost summer time. For months I've been a wishin' That I could take my hook and line And go somewhere a fishin'.

Life can hold no greater joy For which we thank our Giver, Than just to take our little boy And fish along the river.

He always has a cunning look And his eyes will sparkle bright When he says, "Dad bait my hook I don't know how to do it right."

He claps his hands in pure delight And laughs in childish glee For every time he gets a bite He wants his Dad to see.

Sometimes a minnow steals the bait And then he's sure to say "Hurry Daddy I can't wait I'm afraid he'll run away."

Sometimes by just the merest chance A sun fish grabs the hook, And then its fun to see him dance And holler, "Look-ee, Daddy Look."

I love to see him bright and gay So that if trouble ever comes, I know that He'll be sure to say That he and I were chums.

I very seldom catch a fish, But I try to please the boy And its my first and only wish To do things that he'll enjoy.

Some day a man he will become, So I intend to keep on wishin' That he'll remember all the fun, We had while we were fishin'.

Suddenly It's SPRING!

SPRING has an unexpected way of jumping to the center of the stage.

But no matter how sudden the entrance, Spring will not catch us unawares.

You'll agree that we are well prepared for the coming of Spring when you see the new models which we have on display.

They're more than signs of Spring. They are Spring itself.

To Get Early B. B. Coin

By HENRY L. FARRELL
(United Press Sports Editor)

New York, April 2—Prospects for a National League pennant in Chicago this year went up in a cloud of dust at third base recently when the Cubs were plying an exhibition game.

Rabbit Maranville hit the dirt trying for the bag and was carried off the field with a broken leg. The injury will have the immediate effect of keeping a reliable player out of the game for three months and it may have a permanent effect in slowing up a player who is no youngster and who has always relied considerably upon speed for his efficiency.

The Cubs, it might be argued, did not have an outstanding rating as a pennant possibility, but they have little or no chance now. Maranville is no Hornsby or no Frankie Frisch, but his loss to the Cubs will be terrific, because there is no one to take his place.

The loss of one player would not wreck the New York Giants, but it

would ruin the hopes of most any other club in the National League, because there is no club that has the wealth of reserve material that can be found on the New York bench.

Major league managers have been flirting with accidents such as wrecked the Cubs ever since it became the vogue to help meet the board bills at the training camps with a long series of exhibition games. Bill Killefer may not be responsible for the conditions, which resulted in the loss of Maranville, because, with few exceptions, major league managers are but employers and the judgment of the business office is allowed to outrank theirs.

Managers differ in their ideas about the best method of preparing a ball club for a pennant race, but all the training plans seem to be subordinated by the wishes of the club owners to have the training camps cost them as little as possible. It is perfectly logical from a business point of view to save money during the training season, but it seems to be foolish economy to take a 20 to 1 shot on losing one or two invaluable players.

SCHOOL OFFICIALS TO GO ON "GREEN CARPET"

Summoned From Washington, Ind.,
to Explain Alleged Hiring of
Special Coach

VIOLATION OF RULES CHARGED

School officials of the city of Washington, Ind., have been summoned before the board of control of the Indiana High School Athletic Association to answer to complaints and charges against them. The meeting will be held Saturday in Indianapolis.

The charge to be investigated is one which will make them explain the reports that Burl Fiddle, Franklin college star, spent a week in Washington training the team before the state tourney. Newspapers in Washington state that Fiddle was there, and had seen the team in practice. Fiddle was so enthused over the prospects of the team, that he signed an agreement to coach the team next year.

The ruling of the state board is that no one can be brought in to assist in coaching unless he is a qualified member of the teaching faculty, and if these charges can be proven against Washington, it will mean their suspension from athletics for probably a year. The school officials summoned are John Shipp, city school superintendent; O. A. Fulkerson, principal, and R. L. McIntosh, member of the city school board.

On Tuesday evening Miss Henrietta Coleman entertained one division of her art class of the Graham High School, with a six o'clock dinner at her country home north of the city. A delicious menu was served and the guests enjoyed a most splendid social evening.

The Always Present class of the Main Street Christian church held a meeting Wednesday evening at the home of Mrs. Mary Ruhlman in North Willow street. A pleasant evening was enjoyed by the members in the business session and informal social period following. Daily refreshments were served by the hostess.

Mr. and Mrs. Grant Miller had as their guests last Sunday, Mrs. Martha Hungerford, Mr. and Mrs. Alva Hungerford, Mr. and Mrs. Elmer Hungerford, Mr. and Mrs. Ed Pate, Mr. and Mrs. Arthur Weidner, Mrs. Ida Hungerford, Earl Hungerford, Miss Lena Hungerford, Miss Mary Hungerford, Burlin Pate, Thelma Weidner and Woodrow and Lowell Weidner.

Mrs. Louis Mauzy assisted by Mrs. R. E. Jenkins entertained the Psi Iota Xi sorority Tuesday evening at her home in North Perkins street. The sorority discussed the dance to be given following the Indiana University Glee Club concert at the Annex auditorium, Friday evening. The dance will be given at the Social club rooms. The evening was closed with the serving of light refreshments.

Twenty-six members of the Rehearsal Crochet Club were delightfully entertained Wednesday afternoon at the home of Mrs. Jacob Webber in West Fifth street. An important business session was held during which business matters pertaining to the club were discussed. Delicious refreshments were served during the social hour at the close of the afternoon's program.

MRS. AMY ELLEN FOX DIES NEAR MANILLA

Wife of Jacob Fox Expires Wednesday, Surviving Paralytic Stroke Only Few Days

FUNERAL FRIDAY AT 2 P. M.

Mrs. Amy Ellen Fox, wife of Jacob Fox, a well known woman of the Manila vicinity, died Wednesday noon at her home north of Manila, after an illness of a few days, having been stricken with paralysis last Sunday.

She had lived in the Manila vicinity for 23 years, and her death was quite a shock to her many friends of that community. Funeral services will be held at two o'clock Friday afternoon at the late residence, with the Rev. John W. Bennett, of Manila, officiating. Burial will be made in Forest Hill cemetery near Manila.

Mrs. Fox was the daughter of the late James and Angelina Blackford, and was born in Shelby county, near Manila, October 1, 1865, being 59 years of age at the time of death.

Besides the husband, Jacob Fox, she leaves two daughters, Mrs. Clara Gross of Manila, and Miss Blanche Fox at home; one son, Ralph Fox of Indianapolis and one brother, Zedec Blackford of Shelbyville.

That two Detroit women, the widows of the Dodge brothers, are among the world's richest women.

That a large stock or bond issue may next come onto the market and that another big automobile concern, which may include other companies, may be advanced to offer competition to General Motors.

That E. L. Doheny, the man who personally discovered the Mexican oil fields, had sold control of his holdings outside of the United States and will confine himself to his California properties.

That through the deal the Standard Oil Company of Indiana, a week ago without interests in foreign oil, is now one of the largest factors in the foreign oil business.

That the Chase Banking interests and British interests headed by Lord Inverworth, are allied with the Standard Oil of Indiana in purchasing Doheny's property, but the Standard retains control.

Those were some of the things that first hit Wall street in its study of what had happened.

Each of the two transactions lies romance such as seldom has been in all the romantic history of American fortunes.

First came the romance of the Dodge Brothers—two mechanics who worked for so much a day; made a little money and then went broke in

the bicycle business; made a little more; invested it with Henry Ford and in about 15 years became among the nation's wealthiest.

Then the brothers died, leaving their fortunes to their widows.

MUSICAL CONTEST TO BE HELD MAY 9

To Be Closing Event to Celebration
of National Music Week in This
State

2400 PUPILS ARE ENTERED

Following Contest Participants to be
Entertained at a Concert by Miss
Virginia Rea

Indianapolis, Ind., April 2—As a climax to the celebration of National Music week in Indiana one of the largest musical contests ever held in the state will be held here Saturday, May 9, it was announced today.

More than 2400 high school pupils from twenty-four high schools in nineteen cities will participate in the contest which is to be held under the direction of the fine arts and music week committee of the Indianapolis Chamber of Commerce.

Following the concert, the participants will be entertained at a concert to be given by Miss Virginia Rea, coloratura soprano, and Max Rosen, violinist, internationally known artists.

Contestants will represent fifty-four high school musical organizations. The organizations are made up of ten bands with 407 members, ten orchestras with 365 members, eight mixed choruses with 627 members, seventy girls' glee clubs with 805 members, and nine boys' glee clubs with 264 members.

To the winning organization in each classification \$100 will be given as first prize and \$50 as second.

The cities to be represented and the number of high schools and music students entered are: Anderson, one high school and thirty-five students; Berne, one high school and eighteen students; Brazil, one high

KEEP LOOKING YOUNG

It's Easy—If You Know Dr.
Edwards' Olive Tablets

The secret of keeping young is to feel young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action yet always effective. They bring about that natural buoyancy which all should enjoy by toning up the liver and clearing the system of impurities.

"Dr. Edwards' Olive Tablets are known by their olive color. 15c and 30c."

ORANGE HIGH SCHOOL TO PRESENT OPERETTA

Polished Pebbles, an operetta in two acts, written by Otis M. Carrington, will be presented by members of the Orange high school at the Orange school building, Friday and Saturday, April 3 and 4. The play is being coached by Helen Reifel, a teacher in the school, and Miss Marion Tiltworth, the principal of the school. Miss Zelda Hutchinson of Arlington will be the pianist and the stage manager will be Edgar Ruff.

The principal characters are as follows: Uncle Bob, disguised as a Negro in Act 1, Howard Bryant; Mrs. O'Brien, widow, sister of Uncle Bob; Frances Walker; Rosalie, their niece; Nellie Henry; Winifred, Rhelma Russell; Millicent, Mary May; Mrs. Gable, town gossip; Mabel Bowen; Mr. Gable, local character; Dawson Friend; Martha, country girl; Ruby Leonard; Nick, country boy; Robert Fields.

The choruses will be composed of the following:

GASOLINE TAX TOOK EFFECT WEDNESDAY

Motorists Began Paying an Increase
of One Cent a Gallon Due to New
Law

ENACTED BY LEGISLATURE

Motorists began paying an increase of one cent in the price of gasoline Wednesday as the increased

gasoline tax enacted by the 1925 legislature went into effect.

This increase will make the price of gasoline 23.2 cents for the low test and 27 cents a gallon for the high test.

The tax was increased from two to three cents a gallon by the legislature. The two-cent tax had been in effect since 1923.

The total revenue obtained from the tax during a twelve month period will be approximately \$8,000,000 according to estimates.

Two-thirds of this amount will go to the state highway commission and the remainder, which represents the revenue obtained from the increase, will go to counties, cities, and towns for road building and maintenance.

Three-eighths of the revenue obtained from the increase will be divided among the counties equally, three-eighths will be distributed on a basis of comparative road mileage, and one fourth will go to the cities and towns.

HOOSIERS IN WASHINGTON ALWAYS FLOCK TOGETHER

Washington, April 2—Once a Hoosier always a Hoosier. That spirit makes all Indians in Washington a clanish lot. They flock together. They boost each other and boost their home state. They are Hoosiers, proud. And it is this spirit which makes possible the Indiana Society of Washington. The society provides a monthly rally of Hoosiers. Two hundred Indians were present at the March meeting and promoted genuine Fellowship. Secretary of Labor James J. Davis—Jimmy Davis to those who know him best—was a speaker. He does not forget that he got his big start toward success when he lived at Elwood and Anderson, Ind. He is listed as a Pennsylvanian, but he brags that he really is a Hoosier. Among those attending the meeting were Senator and Mrs. Watson, Representative and Mrs. Vestel, Mr. and Mrs. Harvey W. Wiley, Mr. and Mrs. Pratt Loveland, Mr. and Mrs. George B. Lockwood and many others equally well known in Indiana.

Sale of One of Rush County's Best Farms

AT ONE O'CLOCK

Saturday, April 4, 19

I will offer at private sale, at Douglas Morris' law office, Miller Law Building, in Rushville, Indiana, one of the most fertile, best improved and best drained and fenced farm in all of Rush County.

The farm contains, according to deeds, 180 3/4 acres, but an actual survey will show more acres. It was the beautiful homestead of the late Joseph and Gertrude Winship, on the improved highway two miles north of Richland. The homestead residence is one of the finest in the County, and the tenant house is a good one. The farm has barn, granary, double corn cribs, garage and all out-buildings required for a first class home. It is ready for occupancy without repairs, and its fertile soil needs no resting. Here is the opportunity to procure one of the best farms ever offered for sale in Rush County.

Terms

"Learning to Love," Princess
Ten well-known photoplayers are in the cast of Constance Talmadge's First National comedy, "Learning to Love."

In addition to Antonio Moreno, who is Constance's new leading man, the cast includes Wallace MacDonald, Emily Fitzroy, Johnny Harron, Ray Hallor, Edythe Chapman, Afti Goulding, Byron Munson, Edgar Norton and Percy Williams.

"Learning to Love" is a modern society comedy in which Constance shows modern girls the various ways to capture a husband. It is a First National attraction, written for Joseph M. Schenck by John Emerson and Anita Loos.

The picture is now showing at the Princess theatre.

"Smouldering Fires," Castle

There are two classes of persons who can learn a lesson from "Smouldering Fires," Universal-Jewel-Clarence Brown production which opened Wednesday in the Castle Theatre. They are the young man who sees visions of luxury and idleness in becoming the husband of a woman much older than himself, and the middle-aged woman who sees happiness as the wife of a youth half her age.

However, the lesson will be gleaned through the medium of as fine entertainment as ever has been seen on the screen, for there are many pleasant diversions from the lesson part of the story, which, probably, was not intended to teach any lesson at all.

Pauline Frederick and Laura La Plante are co-starred in the picture.

EXECUTOR'S SALE OF FINE RUSH COUNTY FARM

William Fisher, Executor of the will of Gertrude Winship, deceased, will, by virtue of an order of the Circuit Court of Rush County, Indiana, offer to sell, at private sale

ON SATURDAY, APRIL 4th, 1925, at the law office of Douglas Morris, in the Miller Law Building, in Rushville, Rush County, Indiana, at one o'clock p. m. the following described farm land, located in Rush County, Indiana, to-wit:

The Northeast Fractional Quarter of Section 2, Township Twelve North, Range 10 East, containing 127 3/4 acres, more or less.

Also 27 acres off the west side of the Northwest Fractional Quarter of Section 2, Township 12 North, Range 10 East.

Also, all that part of the 83 acre tract of the land off of the east side of the Northwest Fractional Quarter of Section 3, Township 12 North, Range 10 East, except 17 acres off the entire north end thereof, and 40 acres off of the entire south end thereof containing 26 acres.

TERMS

—One-third cash, one-third in nine (9) months and one-third in eighteen (18) months, deferred payments to be evidenced by six per cent notes of purchaser, and secured by a first mortgage on the land sold; or purchaser may pay all cash.

GENERAL DESCRIPTION

This farm constitutes the homestead of Joseph S. and Gertrude Winship, in Richland Township. Among the famous Rush County farms none have better or better drained soil, and none have finer improvements. The main residence is built of perfect materials, has slate roof and stone foundation. It has eight rooms, pantry, two halls, attic, cellar, summer kitchen, well room, wood and coal houses.

Another house on the farm has six rooms with appropriate out-buildings. There is also a large barn, granary, double corn crib, tool shed and other out-buildings, including a good garage.

The land is in the highest state of fertility, well fenced and has four good wells. It is located on an improved highway, two miles north of Richland, and six miles northeast of the thriving town of Milroy, on the Big Four Railroad; it is three miles southwest of the town of New Salem, with its State bank and elevator, and only about seven miles southeast of Rushville. It is only three miles from the New Salem High School, and two miles from the Richland Grade School.

The undersigned offers to purchasers the rare opportunity of procuring one of the finest homesteads in the best farming county in Indiana.

No Room for Rheumatism

Chiropractic Health Talk No. 204
By H. V. McCully, D. C., Ph. C.

Rheumatism is a very common affliction. It is as unnecessary and undesirable as it is common, for in the normal human organism there is no room for rheumatism. It can only affect the body that is physically below par.

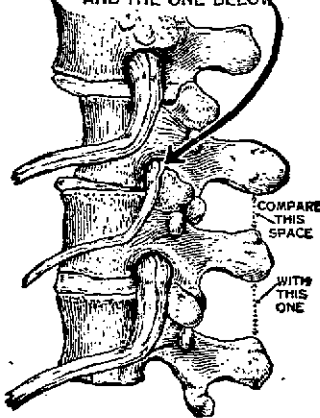

Rheumatism is due to dissemination through the system of waste products — poisons — which are eliminated in the normal body. Because the eliminative system is not functioning properly, these poisons are distributed where they cause trouble.

The primary cause is interference with nerve transmission of the vital energy — the motive power — which animates the eliminative organs. This interference occurs at the spine, where it may be corrected by Chiropractic Spinal Adjustments skillfully applied.

Wonderful Improvement After Adjustments

"I suffered a great deal from rheumatism in the joints, shoulders and arms. I was also constipated, and the medicine I took and the doctor to whom I went did me no good. Two months ago I took a series of Chiropractic adjustments. I made a wonderful improvement and since then have been feeling fine and the rheumatism has practically left me." Mrs. Margaret Cooper, Chiropractic Research Bureau, Statement No. 2093-N.

INSECTS A MENACE TO FOOD SUPPLY

Most Serious Warfare is Being Fought Today Between Human Race and Insect Pests

PESTS CONSTANTLY GAINING

Cotton Boll Weevil, Most Noted of Insect Pests, Was Originally an Unimportant Bug

By DALE VAN EVERY
(U. P. Staff Correspondent)

Washington, April 2.—The most serious warfare ever waged by man, one in which the very existence of the race depends, is being fought today with every backyard a battlefield and every farm a major field.

It is the struggle between the human race and the insects to determine which will flourish on the earth. The city dweller so far is oblivious to this conflict, which he feels only in the increased cost of food and clothing. The farmer feels it keenly in that crop wastage caused by insects costs him dollars and cents.

But the experts of the United States Department of Agriculture, who are making man's organized efforts to conquer the insect enemies, looking beyond the present cost in money, wasted labor, and destroyed crops, regard the future of the struggle as potentially the greatest crisis ever to confront the race.

Insect Pests Gaining

Despite greatly accelerated resistant measures being taken by the department, destructive insect pests are constantly gaining. The most the department has been able to do in many cases is to retard the spread of insect blights. Insect depredations among American crops cost hundreds of millions of dollars annually and each year cost more than the last. If the increase in insect

Child-birth

Here is a wonderful message to all expectant mothers!

When the Little One arrives, you can have that moment more free from suffering than you have perhaps imagined. An eminent physician, expert in this science, has shown the way. It was he who first produced the great remedy, "Mother's Friend." Mrs. C. J. Hartman, Scranton, Pa., says: "With my first two children I had a doctor and a nurse and then they had to use instruments, but with my last two children I used 'Mother's Friend' and had only a nurse; we had no time to get a doctor because I wasn't very sick—only about ten to fifteen minutes." Use "Mother's Friend" as our mothers and grandmothers did. Don't wait until today, and meanwhile write to Bradfield Regulator Co., R. A. 16, Atlanta, Ga., for a free illustrated book containing information every expectant mother should have. "Mother's Friend" is sold by all drug stores—everywhere.

"Baby Market"

Markets where babies are sold are the objectives of the latest investigation by Los Angeles authorities. Around \$200 is the average price charged for infants in houses where expectant mothers are kept, officials charge. One arrest has been made in connection with the investigation, that of Mrs. Hazel Sims. She was traced through an advertisement in a local newspaper which read: "Adoption. Have private home for unfortunate girls. Babies adopted. She refuses to comment on the charge."

destruction continues at its present rate the time will come when what the insect takes will amount to so much there will not be enough left to satisfy man's needs.

The new insect menace appeared within the last generation. Conditions brought into effect by civilization gave the insect its great opportunity. Originally, under natural conditions, for every insect there was a natural enemy. Parasites infested them. Birds ate them. Other carnivorous insects ate them. One species of insects lived on the eggs of another species. This natural balance restrained dangerous kinds of insects from becoming too numerous.

Nature's balance was distorted by civilization. Man denuded vast stretches of country of its natural forest. Bird life was restricted. With natural conditions destroyed, various species of insects found a sudden opportunity to expand.

International commerce spread insects in strange parts of the world where freed from their natural enemies, they could expand unhampered. Plants brought from Asia to America might carry two or three specimens of an insect, which innocuous in its homeland, found in its new environment a chance to flourish untroubled by its natural enemies. Immediately the strange insect multiplies and becomes a menace.

The Cotton Boll Weevil

The cotton-boll weevil, most noted of insect pests, was originally a little known and unimportant bug which lived on wild cotton in the mountains of Mexico. Its food supply was strictly limited. Introduced by chance in the fringes of the cottonbelt in southern Texas, it suddenly found in the endless fields of cultivated cotton a limitless food supply.

With a birth rate which it has been estimated produces over 12,000,000 offspring to a single pair of weevils in one season, the pest spread like wild fire through the cotton fields in the south. It lodged in Texas in 1892. Despite all efforts to resist the plague it spread as far north as North Carolina in the succeeding 30 years. The bug which was of no importance in its natural wild state had been given an opportunity by the unnatural conditions brought about by civilization to become a

menace to one of the staple crops of the country, costing annually losses of from \$200,000,000 to \$300,000,000.

The history of the boll weevil illustrates the general insect menace. Pests which in their natural state faced so serious a fight for existence they barely were able to get along at all have suddenly been presented with an abounding food supply, been freed of their hereditary enemies, and as a result have multiplied with speed and vigor.

PRICES SPEAK LOUDER THAN WORDS

But prices coupled with Quality and Service shout a story that is heard from one end of Rush County to the other. A customer said to us a few days ago, "It is a positive pleasure to spend money at your store. I always get what I want from you." Will you profit by this customer's experience?

Our constant effort is to have JUST WHAT YOU WANT.
